

LAFITT TANDEM WALL
RANGE NEWPORT GREY

Lafitt® Tandem® 90 and 180 Wall

The Lafitt Tandem's new 180 mm height offers even greater versatility to the Lafitt Tandem wall. It creates a unique modular look and continues to be used many ways: in retaining walls, pillars, double-sided walls, benches and steps. This revolutionary wall comes in four luminous colours that, more than ever, replicate the natural look of stone. Identical appearance to the popular Lafitt Stone used as exterior cladding.

Celtik® Wall

With a maximum height of 42 inches, Celtik wall is considered the standard in the landscaping market. Celtik is reminiscent of old stone structures typical of the Irish and Scottish countryside. Its rich texture and variety of units gives you a choice between the uneven look of cut stone and the more linear look of a brick.
