

AquaStyl® Plus Pavers

This accessory with a quarter round profile was specifically designed for pool edges. It can also be used for building steps, to create wall cappings or to define the boundary of a paver installation. The slightly textured surface of this paver will give your space style and originality.

Versailles® Rocart® Step

The Versailles step is a unit of concrete used for step construction that blends harmoniously with any exterior design. As a single large block of concrete, it constitutes both the step and the riser. Moreover, it has a relatively rough texture that makes it a non-slip and safe surface for users. It is offered in two colours with the RocArt finish.

UNIT

145 mm x 400 mm x 915 mm
5 3/4" x 15 3/4" x 36"

Esplanade® Accessories

Esplanade chiseled capping is the perfect accessory for finishing walls and steps. It looks uncannily like natural stone and offers the choice of monochromatic, contrasting or innovative approaches for beautiful landscaping results.

Esplanade bullnose capping is a pool coping with a semi-circular profile. This long slim module offers a wonderful finish.

Designed specifically for capping pillars built with Permacon wall, Esplanade capping is available in four sizes. Because it is textured on five sides, it will provide the perfect finishing touch to your outdoor project.

The Esplanade step measures 1219 mm (48 in.), is lightly textured and looks exactly like natural stone for a genuine rustic look.
